CompTIA 220-802 Domain 3 Mobile Devices

Brought to you by RMRoberts.com

The CompTIA A+ Domain 3 Mobile Devices only comprises approximately 9 percent of the entire test, but a lot of the information is new from the view point of the A+ Certification. To help you prepare we have provided several webpage links, and an outline of the test objectives. Use the outline to list facts or definitions about each objective in the list.

Below are some links that may help you prepare your study guide..

Article on Mobile Broadband at the www.RMRoberts.com website.

Mobile Broadband Access (Link)

Below is a link to the Microsoft training video Mobile Broadband which demonstrates the latest in Windows 8 broadband features and configuration .
